Wolverhampton Action 4 Diabetes

WA4D was formed in March 2002, with the aim of improving and maintaining diabetes care in and around Wolverhampton.

We organise events for those living with diabetes so that we can share information.

Everyone affected or interested in diabetes is welcome to attend.

We have interpreters at all of our meetings.

Refreshments are available.

Membership is free!!

We have a varied programme of speakers throughout the year and will keep you informed of your rights and what services to expect.

We will tell you about the services that are available in this area.

We work closely with health professionals, Diabetes UK and other support groups.

You will have the chance to share information, experience and knowledge with others who understand what it is like to live with the effects of diabetes.

You will be made to feel very welcome - we're friendly people.
